Description

This story is looking to ensure testing of the following GUI elements: menu, booking forms, text boxes and input fields, images, cards, layout.

The main focus of this scenario is to make sure the interface and user experience meets the expected design and functionality. The tests are executed manually observing the behaviour and functionality of the website in different scenarios.

Preconditions:

- tester has stable internet connection
- tester uses Google Chrome browser on PC or laptop
- tester navigates to travelminit website
